CALHOUN'S MISSION.

His Special Duties Are by No Means Ended.

KEPT VERY BUSY IN WASHINGTON.

The President Will Likely Form His Cuban Policy on Mr. Calhoun's Reports. It Is Believed That He Will Advocate Intervention—Spain Willing to Compromise the Ruiz Case.

WASHINGTON, June 19.—Mr. Calhoun has been in frequent consultation the past two days with the president and Assistant Secretary Day in an endeavor to discharge himself of so much of his mission as will enable him to return to Illinois to attend to some pressing law business. He will return to Washington, however, next Wednesday to resume his labors. The special commissioner already has reduced to the shape of a written report some of the results of his observations, but his work is far from complete.

It is probable that the findings of Mr. Calhoun in the end will be entrusted to Mr. Woodford to take with him to Madrid and support such representations as he may be charged to make to the Spanish government. It is also likely that upon Mr. Calhoun's return to Washington next week a full conference will be held between him and Mr. Woodford, who is expected to come over from New York for the purpose.

Mr. Calhoun's official investigations were limited to the Ruiz case, but his observations while in Cuba on the progress of the rebellion have been laid before the president in an unofficial way, and will have much weight. There is no doubt that an indemnity will be promptly asked for the family of the late Dr. Ruiz. Mr. Calhoun so reported, and the president will act upon it.

The United States will not make the demand on the ground that Dr. Ruiz was murdered, for that can not be proved, although circumstances indicate that he was. But a confession on the part of Spanish officials that he was kept imprisoned, out of communication with his friends, beyond the 72 hours' limit, will be urged as sufficient ground for an indemnity claim that will probably be fixed at \$150,000.

Special Envoy Calhoun's unofficial report on the rebellion has created the greatest interest here. It is known that he told the president Spain would not be able to put down the rebellion, and advised the necessity of an early intervention. He does not believe annexation at this time advisable, but believes the interference of this government is necessary to secure Spanish reforms, and a strengthening of the local authority in governmental affairs in the direction of home rule. If possible to attain it, the independence of the island would be the best solution of the present problem, according to Mr. Calhoun's idea. He is doubtful of the propriety of adding such a population as exists in Cuba to that of the United States.

The president will act very much in accordance with what Mr. Calhoun has suggested, it is thought, and in a short time make known his views to congress. That it will be an intervention in favor of immediate cessation of hostilities is the opinion of those who have an inside knowledge of the administration's foreign policy. And the president may even take the ground that the island should be free and propose terms to Spain.

SPAIN WANTS TO COMPROMISE.

Premier Canovas Willing to Pay Mrs. Ruiz \$40,000 and Is Severely Criticized.

NEW YORK, June 19.—A dispatch to The World from Madrid says: Premier Canovas is willing to pay the widow of Dr. Ruiz \$40,000, if the United States government will not press an official claim. The announcement of this fact has aroused vehement public opposition, which the Madrid press is inflaming. The newspapers blame the government for allowing Dr. Ruiz to be killed, but censure it most for acknowledging it. They say Spain is "under the iron heels of the Yankees."

The impartially declares that "neither Cuba nor a hundred Cubas would be worth the sad humiliation to which, in the name of the nation, the Canovas cabinet subjects us with deplorable frequency. Recognition of the claim puts Spain as a nation beneath the Moors, because this dentist, for whose death such an enormous sum will have to be paid, was not killed in a Spanish prison, by undisciplined natives and semi-savages, but by functionaries of her Catholic majesty's government."

The present Spanish demand for the truth about Cuba, already met by a fearless statement that the military situation there is hopeless, is answered now by the first definite admission of cruelty. The Spanish officers' actions are not so much deplored as their being discovered, while it is their being acknowledged that causes anguish.

Senor Silveira, the leader of a considerable section of the Spanish Conservative party, hostile to Premier Canovas, strongly indorses the war policy in Cuba, and has just said: "If it is true that the Cuban war is one of conquest in order to subdue a people united against Spain, it constitutes an insoluble problem, and the island should have been given up a year ago."

Such a statement would have caused the speaker to be publicly stoned if made in the streets of Madrid, but it was received with prolonged and enthusiastic cheers from a high-class audience of Conservatives, packing a theater to roof, was warmly commended by the Liberals and independent press, and only perfunctorily criticised by the Conservative organs.

The Liberal paper, El Globo, says: "Weyler has already had 17 out of the 24 months in which he promised to finish the war by the severe measures he learned to use in the 10 years' struggle."

"Weyler's Mariel trocha is called a 'horrible burial ditch for thousands'; its military efficacy is declared to be such that it was tranquilly crossed by Maceo, who only met his death by falling into Cirujeda's hands. Weyler's endeavor to surround Gomez is characterized as a 'four-months flourish, during which the rebel chief never left a small circle near the Jucaro trocha,' and the pacified provinces are admitted to be so only in name."

Regarding the present plan to invade the eastern half of Cuba, El Globo quotes from the report of General Sotano that during the rainy seasons two battalions of 800 were reduced to 800 and 400 by yellow fever, cholera and dysentery, adding: "Daily marches, each costing 10 per cent, the disabled requiring further loss of eight soldiers to each stretcher—are made in pursuit of an invisible enemy, never open to attack; an enemy that is never surprised, for the country watches for it; an enemy whose plan of campaign is to decimate the troops by the mortality in the marches and the camps, and the rigor of the climate."

Weyler's campaign generally is characterized as an expenditure of many months and immense resources in trying to destroy what in Cuba is indestructible.

LETTER FROM GOMEZ.

He Is Confident of the Success of the Cuban's Cause.

NEW YORK, June 19.—The Cuban junta has received a long letter from General Maximo Gomez, dated La Gloria, Sancti Spiritus, May 16. Gomez writes: "I move freely among Weyler's swarming soldiers, and in the daily battles that occur the reports of muskets resound in the midst of smoke that arises from the work of incendiaryism of the would-be victors. Weyler has been unable, despite all his efforts to compel me to change my plans, and when he dares to announce that Las Villas is pacified, we are defeating in open field his columns, and our cavalry, with its machete charges, routs the enemy. This was done recently by the forces under the Cuban brigadier, Jose Miguel Gomez, and those under Colonel Jose De Montegudo, and similar encounters are frequent."

"When the large Spanish columns make the woods tremble with their cannonade and musketry; when they have been compelled to execute quick marches and to hide during the night in their encampments in the woods, without daring to light campfires for fear of our sharpshooters, the papers in Sancti Spiritus assert that this part of the island is pacified. Similar assertion is made in respect to Pinar del Rio and Matanzas, though in these provinces continuous fighting is going on under the leadership of active and able officers. But Weyler must lie in order to suit the Spanish government, to whom he owes obedience, and he lies impudently, as calmly as he beholds the sword of the assassin sink into the bosoms of women and children and old men."

"The war continues with success in spite of Weyler, his men and his infantry. I dare affirm, based upon my experience in this kind of warfare, that the winter campaign will soon be over, and our army will be unimpaired, and the Spanish cause without any advantage. The revolution is, therefore, stronger than ever, and we shall continue without serious obstacle with greater faith as to the ultimate result."

"If this devastating war, which is costing so many Cuban lives, and both Cuban and foreign property, must cease and peace is to come, it must be with independence. We hold very dear the lives of our gallant soldiers, and in order to spare them we are willing to make a pecuniary sacrifice, though we are convinced that independence will soon be reached. Spain's treasury is exhausted. She has been humiliated. On the other hand, we feel hopeful and strong, and we stand firmly united against her."

ANYTHING FOR LIBERTY.

Bold Fraud on the Part of a Prisoner to Secure a Pardon.

COLUMBUS, O., June 19.—The state prison physician has discovered a bold fraud on the part of Convict Rev. G. B. F. Howard, in his attempt to secure a pardon from President McKinley on the ground that he has Bright's disease. Howard induced a convict named Montgomery, who had charge of the tests, to falsely report that he was in the last stages of Bright's disease. The report was sent to Washington, together with samples for analysis.

At the last minute prison physicians became suspicious, and Montgomery weakened and confessed. He had secured data from another prisoner who has Bright's disease, and used them for Howard. An examination of Howard does not reveal the slightest trace of Bright's disease.

Depot Burned.

COLUMBUS, O., June 19.—Most of the Baltimore and Ohio freight depot was consumed by a fire early yesterday morning. The estimate loss on the building and freight is \$60,000. The fire is believed to have been started by sparks from a locomotive.

Death of a Prominent Divine.

DELAWARE, O., June 19.—Lorenzo D. McCabe, D. D., LL.D., for 50 years a professor in the Ohio Wesleyan university, and a distinguished author and theologian in the Methodist Episcopal church, died here yesterday in his 81st year.

DAWN OF PROSPERITY

R. G. Dun & Company Sees a Bright Future.

BUSINESS GRADUALLY IMPROVING

There Is Evidence of Gradually Enlarging Business in Every Important Department—More Establishments Have Been Set at Work and More Hands Employed. Seasonable Weather Helping Trade.

NEW YORK, June 19.—R. G. Dun & Company's weekly review of trade says: The retarding influence of cold and unseasonable weather has passed. The gain in business in spite of it was seen a week ago and has become clearer to all. As no genuine improvement ever begins with an uplifting of prices before the producing force has become fairly employed, this does not, and the buying of 7,000 bales Australian wool by one Boston house, and 100,000 tons pig iron by a Wall street operator, and advancing prices for stocks, are the only proof that the actual conditions are understood by some capable men. There is evidence of gradually enlarging business in every important department, more establishments have been set at work and more hands employed, and while prudence still hinders speculative excesses, the progress toward better things is unchecked. Reports from the various cities this week show a very general progress, and a continuing large distribution through retail trade.

The proof is clearer, as it should be, in the industrial than in the trading field. Contracts for consumption of 7,000,000 tons iron ore have already been made, 2,000,000 within the past fortnight, it is believed, though last year's contracts only terminated about two months ago. Bessemer ore is selling lower by 20 to 30 cents than at the outset, Biwabik at 2.25 against 2.55, but the heavy demands put additional mines at work. The speculative purchase of 100,000 tons of southern pig at 5.75 clears the deck for a larger business at better figures, and sales at Chicago—150,000 tons—have been the largest for 18 months. Reaction after the sudden purchase of 50,000 tons Bessemer at Pittsburgh leaves the price \$9.50 per ton, but the heavy orders for bars there and for 50,000 at Chicago, mainly from implement makers, with orders for many new buildings at the west, one of magnitude at Philadelphia, and several at New York, the larger demand for plates and sheets, the order for 22 miles of pipe, and the purchases of steel rails which have started the new Joliet works with good orders, are far more important than the speculation in materials.

Coke production has increased 2,500 tons, nearly 2 1/2 per cent, without change in price. Tin is stronger at 13.75 cents, and the copper output in May, larger than in any other month this year, has not yet lowered quotations, while lead is stronger. The demand for print cloths, for the first time in many months, has exceeded the week's production, and the price has risen a shade, while prints and other grades of cotton goods are in slightly better demand. There is a more widely distributed business in woollens than was expected. Clothiers are buying, and as they come late, are in haste. Some eastern mills have been in the market, but the bulk of the purchases of wool has again been by speculative houses at Boston, where almost 10,000,000 pounds were sold, against 6,551,300 at New York and Philadelphia. Western operators still pay more than eastern prices warrant.

In produce markets the fiscal year draws toward a close with slightly stronger prices for corn, owing to heavy foreign buying, and in cotton, owing to a better foreign demand, notwithstanding more encouraging crop reports. Nobody can count bales in June, but the outlook is so far favorable that few make large ventures against the yield exceeding 9,000,000 bales. Wheat has hoisted nearly 2 cents, but fell about as much, closing one-fourth higher for the week, in spite of reduced western receipts and Atlantic exports. Except reports from winter wheat regions west of Ohio had much influence, but still more the great, but really unknown increase of spring wheat acreage with exceptional prospects thus far. In two weeks of June, Atlantic reports of wheat and flour have been equal to 4,977,653 bushels, against 6,210,823 last year. Failures for the week have been 198 in the United States, against 276 last year, and 36 in Canada, against 28 last year.

CIGAR COMBINE.

The Two Biggest Plants in America Have Consolidated.

NEW YORK, June 19.—The two largest cigarmaking firms in America have joined forces and will hereafter be conducted on a fraternal basis, though each will retain its identity. They are the firms of Kerbs, Wetheim & Schiffer and Straiton & Storm.

Straiton & Storm will abandon their Twenty-seventh street and Third avenue factory and move to East Fifty-third street. The new plant will employ 4,000 workmen, and will be the biggest thing in smoke going. Its output will be 100,000,000 cigars a year.

Members of the two firms say that the only public significance in the consolidation is that expenses can be reduced and smokers get the benefit of better goods. They say there is no trust idea connected in any way with the new scheme.

Twenty People Injured.

RIVER FALLS, Wis., June 19.—During the street parade by the Lemon Brothers' circus yesterday a balcony over a sidewalk occupied by about 20 people gave way and the party was hurled about 18 feet to the sidewalk. Many people were injured. Several children who occupied the sidewalk were badly hurt. Genie Erickson and Carrie Hanson were among those most seriously hurt, the latter being probably fatally injured. Several Indians received dangerous injuries by falling timbers.

CHICAGO, June 19.—Charles W. Spalding, ex-president of the defunct Globe Savings bank and ex-treasurer of the state university, was yesterday acquitted of the charge of embezzlement. The verdict was a general surprise, as the instructions of the court to the jury left scarcely any chance for an acquittal. The first words uttered by Spalding after the verdict had been read in court were: "Well, this is a surprise."

The specific charge against him was the converting of \$7,000 worth of the bonds of Pittsfield school district in Pike county. These bonds were hypothecated with the Metropolitan National bank of this city as security for a loan of \$5,750.

Spalding owes his acquittal to a single word in the statute. That word is "interest." The jurors could not become reconciled to the proposition that the ex-treasurer of the University of Illinois intentionally embezzled the bonds of that institution. Six ballots were taken by the jury, the first and second being four for conviction and eight for acquittal. Three voted for conviction on the third ballot, two on the fourth and fifth, and all for acquittal on the sixth. After being taken back to jail Spalding said:

"I must admit that it did surprise me some at first. After all, the jury took the view of it urged by my counsel and as the prosecution showed no criminal intent, the jury was bound to acquit me."

There are still 27 indictments hanging over him and he will be tried again. EVIDENCE OF FOUL MURDER. The Body of a Woman Minus Head, Arms and Legs Found in a River.

PORTAGE, Wis., June 19.—The badly decomposed trunk of a woman, minus head, arms and legs, was found floating in the Wisconsin river, four miles below the city. There were many indications of murder. Coroner Allen was called, and finding no clew to the identity of the corpse, buried it without formality.

There was not a vestige of clothing or anything that would aid in identification. The authorities are investigating the case, however, and sensational developments are expected. Some time ago a young woman disappeared in such a manner as to direct suspicion toward several people and there is much excitement here over the discovery.

Crows Ruining Crops. WEST UNION, O., June 19.—Since the heavy floods some time ago a great number of crows collected along Brush creek, attracted by the old corn swept out of fields and lodged in the brush. Devouring all of this, they have now attacked the young corn in the fields nearby. The entire flock of several hundred visited a 10-acre field on John Graham's farm Tuesday and destroyed almost the entire field, pulling up the young plants to secure the seed grain. What the crows are leaving the squirrels are destroying.

Found Guilty of Perjury.

SPRINGFIELD, O., June 19.—George H. Jackson, who became famous in the Pearl Bryan murder trial, by testifying that he drove the carriage in which Scott Jackson and Alonzo Walling conveyed their victim to the Kentucky highlands, where her body was found, was yesterday found guilty of perjury in a case where he had given testimony in a criminal trial in Springfield. Sentence has not been pronounced.

Candidate For Commander C. V. A.

LOUISVILLE, June 19.—The Kentucky ex-Confederates will present the name of General Simon Bolivar Buckner for commander-in-chief of the Confederate Veterans' association, when it holds its annual meeting in Nashville next week. They have been in communication with General John B. Gordon of Georgia, and he has stated that he would not allow his name to be presented for reelection.

Sold His Wife.

ALLIANCE, O., June 19.—Jacob Zellar, who came here from Switzerland with his family, expressed a desire the other day to return to his native mountains, but he did not have the money. His partner in farming gave him \$100 for his wife, with her consent, and Zellar is on his way to Switzerland. Several children were thrown into the bargain. Brecht Yanne is the name of the purchaser.

Blast Furnaces to Resume.

YOUNGSTOWN, O., June 19.—Within a short time three furnaces in the Mahoning valley, which have been out of blast for some time, will resume. They are the Struthers furnace, at Struthers; the Andrew Brothers & Company furnace, and the furnace of the Youngstown Steel company of this city. The Andrews & Hitchcock furnace, at Hubbard, resumed operations Tuesday.

Poison Put in a Well.

CHARLESTOWN, Ind., June 19.—An unknown enemy put poison in Elisha Miller's well and he and his wife are in a critical condition.

TORNADO IN ILLINOIS

Loss of Life and Great Destruction of Property.

IMMENSE COW BARN DEMOLISHED.

Twenty-Six People Buried in the Debris, Four of Them Taken Out Dead—Several People Killed in Nebraska—Two Cyclones Reported From Iowa—Damage Done in Indiana.

LINCOLN, Ills., June 19.—A tornado which passed over the central and southern portions of Logan county yesterday afternoon destroyed thousands of dollars worth of property and completely demolished the immense cow barn on the farm of the state institution for the feeble-minded. Twenty-six persons seeking refuge from the storm were buried in the debris. Four of the refugees, boy pupils from Chicago, were taken out dead. Five others were severely injured, one of whom, the farm superintendent, will probably die.

The dead are: Sylvester Baker, James O'Brien, Neal McKenzie, Castle Le Baron.

The injured are: Jacob Wilmet, farm superintendent; will probably die. Henry Lorgier, severely bruised; will probably recover.

William Wilhem, badly cut; not dangerous.

William Fisher, severely bruised and cut; will probably recover.

Lemuel Gleason, attendant, serious internal injuries; may die.

At 3:45 in the afternoon a tornado was seen approaching the city from the southwest. The state institution for the feeble-minded, containing over 700 inmates, seemed to be directly in the path of the storm and stringent measures were quickly taken to prevent a panic. The roofs of several of the buildings were carried away and much damage was done about the grounds, but the 700 inmates were under perfect control of the attendants and the threatened panic and great loss of life was averted.

The tornado passed on to the northeast, touching next on the farm and stock barns connected with the asylum, three miles distant. In the cowbarn were huddled 26 persons, including the superintendent of the farm, Jacob Wilmet, 24 pupils and an attendant. The barn was wrenched from its foundations and torn to pieces. Four of the pupils were instantly killed. The others, with the exception of the superintendent, escaped serious injury, and were shortly rescued from the debris.

The tornado passed on to the northeast.

IN NEBRASKA.

Violent Windstorms Causing Loss of Life and Destruction of Property.

LINCOLN, Neb., June 19.—Violent windstorms prevailed over a wide district in Nebraska late Thursday night and early yesterday morning. In Lincoln some damage was done. At Munroe, west of here, the storm approached the violence of a tornado. Hardly a chimney is left in the town, and many roofs were taken off. The house of Peter Tobin was totally wrecked, and Mr. and Mrs. Tobin injured.

Norfolk suffered from the storm in the way of unroofed houses and small buildings blown away. Two men were injured, but not seriously.

At Milford and Eagle the wind damaged small structures. A limited amount of rain fell, accompanied by hail.

TWO SMALL CYCLONES.

No Great Amount of Destruction of Property Done by Either.

OTTUMWA, Ia., June 19.—A small cyclone passed over Rose Hill, a village in Keokuk county, yesterday afternoon, touching the ground in several places just outside the town. The damage done was confined to trees and outbuildings.

Another cyclone of somewhat greater violence passed six miles east of Oskaloosa. Its path was over two miles in length and about 50 yards in width. The damage was slight, however, being confined to fences, trees and outbuildings.

No One Killed in Indiana.

INDIANAPOLIS, June 19.—A severe storm passed over eastern Indiana at noon. Dispatches from Muncie and other points report damage to factories and houses aggregating \$30,000 or \$40,000, but no loss of life. Rumors were current that several people were killed, but the reports lack confirmation. The principal damage was at Eaton and Albany, Ind.

Cyclone in North Carolina.

CHARLOTTE, N. C., June 19.—At 6 o'clock yesterday evening a cyclone swept over West Burham. The Baptist church was blown down. The large storage house of the Erwin cotton mills was blown down and the stock of cotton clothes stored there were soaked with rain. The loss is considerable. No fatalities were reported.

TERRE HAUTE, Ind., June 19.—George Rigby has been sentenced from three to 14 years under the indeterminate law for poisoning the drinking water of men working on street pavement. He could not get work and his scheme was to make men ill, creating vacancies. He was caught in the act. An analysis showed enough croton oil to cause serious results if not detected. He insisted to the court that he was innocent.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

SATURDAY, JUNE 19, 1897.

INDICATIONS.—Partly cloudy weather with local thunderstorms; northerly winds, shifting to easterly.

ONLY twelve Kentucky Republicans are anxious to serve Uncle Sam in helping to look after the Indian agencies. Senator Deboe, however, has put a damper on their aspirations by announcing that not one of them will be given a place. They will have to cast about for some other office.

THE Washington and Jefferson Societies of the University of Virginia have incurred the ill will of Colonel Henry Waterson by inviting William Jennings Bryan to deliver an address on Thomas Jefferson, and the Colonel cases his pent-up feelings by calling the members of these societies "young squabs." And yet Henri is a great journalist!

THE news from Washington is that Claude Johnson, the gold-bug Chief of the Bureau of Engraving and Printing who has been trying to hold on to his office because he went back on his party last fall and voted for McKinley, is to be fired from his position. The gold Democrats did a good deal to help elect McKinley, but they'll all have to walk the plank.

Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill street, South Gardiner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$375 with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottles free at J. James Wood's drug store.

BANKS MUST REPORT

Pending Decision on Hewitt Law in Kentucky.

FRANKFORT, Ky., June 18.—Auditor Stone was this morning sending out blanks to every bank claiming exemption under the Hewitt act and demanding a report to the Secretary of State under the franchise law, as do State banks. These banks will be required to pay 52 cents pending the appeal on the Hewitt act.

The bank cases will be taken to the Supreme Court, and it may be a year before a decision is reached.

Reports will have to be made out for taxes for the year 1897.

Fire Works.

Don't fail to read next week's paper about Maysville's great Fourth of July celebration; it will give you a full description of what you can see that day.

It will be the biggest day Maysville will ever have. Don't miss it; if you do, you will regret it. Everybody is coming for twenty miles around to see the wonderful Japanese Circus.

JANE BOOTS, of Murphysville, has been granted a pension.

Attractive Women.

Why is one woman attractive and others not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism.

JOE GRIMES.

The Biggest Wheelman in America Just Back From a Trip to Europe.

Joe Grimes, well known to the people of this city, is just back from a six month's tour of Europe. He is a resident of Cleveland now where he acts as an agent for a bicycle company. His mission to Europe was to advertise the carrying powers of his company's wheels. Upon his arrival in New York last Saturday the New York Journal interviewed him with the following result: "The gang plank of the steamer St. Paul," says the Journal, "trembled yesterday morning as a giant wheelman passed over it, trundling a bicycle beside him. He was Joseph W. Grimes, of Cleveland, Ohio, returning from a six months' bicycle tour of Europe. He weighs 540 pounds, is but twenty-eight years old, and has ridden the bicycle for three years past. He will stay for a few days at the Cosmopolitan Hotel. 'I wheel to keep down my weight,' he said with a chuckle, and then he showed a French paper, in which, with a wealth of red and blue coloring, he is depicted on his wheel, with a caption calling him 'Baby Joe,' and an article in which is described the passing of astonished crowds before him at the recent bicycle review in Paris.

"This Colossus of bicycle roads has the fresh, healthy complexion of a child, but his size is simply appalling. When he laughs it is like a mountain shaken by an earthquake; when he sneezes it is an eruption of Vesuvius. He rides a specialty built wheel.

"He is jolly, as fat men are supposed to be, and delights in talking of himself and his size. 'My chest measure is sixty-one inches. I have a waist of sixty-three inches. My thighs measure forty-two inches, and my calves twenty-six inches. Calves! Ho, ho, ho! They're big enough to call 'em cows! But feel 'em. See how hard they are.'

"He wears a suit of Scotch tweed, made at Aberdeen; a negligee shirt of pink and white, a Scotch plaid tie, tan shoes, a leather belt and a jaunty cap, with the initials of a Scotch cycling club. 'The French and Belgian clubs met me, and did lots to make my trip pleasant, too; but, bless you, I can't tell their names. I can't remember foreign names longer'n a minute.'

"Married? No. Ha, ha, ha. I'm willing to be, but if I'm so big as a single man, what would I be doubled up! I wheel everywhere, in spite of my weight, just like ordinary wheelmen, except that I don't coast down hills. I don't dare. Once on the Alpine slope, my pedals got away while I was busy looking at the scenery, and you should have seen the villagers run and scream as I flew by. Thought I was a runaway locomotive, you know, the size and momentum were so great."

For several years Joe resided in this city where his father was engaged in the furniture business.

J. T. Kackley & Co. are offering bargains in high grade wheels,—Victors, Cleverlands and Keatings.

The world's record was broken in London last week for an hours ride. It is now thirty-two and one-fourth miles.

Miss Bessie Horrocks, one of Ashland's young cyclers, brought her wheel down to have a good time in local wheel circles.

Messrs. Judd, Mills and Kackley say if you ride your wheel squirrel hunting you are sure of one thing at least and that is a nice easy morning ride.

The L. A. W. will give your estate \$100 if you break your neck on a wheel or if you die within two weeks from injuries received from riding. Are you a member? If not, see Dr. Smoot.

The cyclers who visited Blue Licks last Friday had their pictures taken by an amateur who was on his way to Columbus, O. who expected to make the distance of 270 miles in two days.

Messrs. Judd, Gabby and Kackley made a business trip Thursday afternoon, filling appointments at Flemingsburg, Nepton, Elizaville and Mayslick, a distance of forty-five miles.

HUNTINGTON, W. VA., June 15, '97. J. T. Kackley & Co.,—Dear Sirs: The Crescent came to-day and it is a daisy. Thanks. Yours, appreciatingly, A. E. ZEIGLER.

The twelfth annual meet of the Kentucky Division, L. A. W., will be held at Cynthia, June 22nd and 23rd, under the management of the Cynthia Meet Club. A number of our cyclers will attend, as stated elsewhere.

Messrs. J. T. Kackley, Walter Watson, A. M. Slack, Mr. Peed, Orlando Cox, Ed. Nesbitt, Ed. Geisel, Pearce Browning, Allan Dodson, Millard Williams and Will Heiser will leave Tuesday morning for the State meet at Cynthia.

THE marriage of Miss Sophia Albert to Mr. Charles G. Lender is announced to occur next Thursday afternoon. The nuptials will be solemnized at the home of Mr. and Mrs. Geo. Cox, at 2:30 o'clock. Mr. Lender is a successful business man of St. Louis.

THE court at Cincinnati has affirmed the decision in the case of Alice Armstrong against Henry D. Halbert, of Vanceburg, for damages for breach of promise. Miss Armstrong attached \$1,300 Halbert had in one of the banks at Cincinnati, and the court says the attachment is good.

At Cincinnati Friday the Circuit Court heard the case of Jonathan Hamilton, of this city, against Scott Bonham, administrator of R. W. Mercer, to compel the delivery to him of the assets on an alleged sale for \$3,500, the case being taken up from Common Pleas Court, where plaintiff's suit was dismissed. The lower court was reversed on the ground that the dismissal of plaintiff's petition was wrong. Captain Hamilton bought Mercer's stock of curios, and the fight is for possession of the goods.

THE tenth series of stock in the Mason County Building and Savings Association will mature on July 5th, and the association will on that date pay out over \$30,000 to the holders of this stock. That's a handsome sum of money to be distributed by any association. Stock in this association has always proven a profitable investment. In fact there is no better or safer way to invest your money, for by paying a nominal amount to the building association each week in a few years you can own the house in which you live, while at the end of the same period your neighbor who rents a house will have only the landlord's receipts to show for what he has paid. It is not necessary to think this over, you know which plan is the best. Call on M. C. Russell, Secretary, or R. K. Hoeflich, Treasurer, and subscribe for stock in the twenty-third series, beginning July 1st. The books are now open.

SOLD PART OF THE ROAD.

Fleming County Buys Nearly Seven Miles of the Lexington Pike For Five Thousand Dollars.

The Fiscal Court of Fleming County closed a deal Thursday with Col. W. W. Baldwin of the Maysville and Lexington Turnpike Company for that portion of the road in Fleming.

The section of the pike in Fleming County is six and a half miles long, and the county is to pay \$5,000 for it.

This practically ends the turnpike troubles in Fleming as all the roads in that county are now free except about five miles.

Col. Baldwin was at Carlisle Friday to confer with the Fiscal Court in regard to that part of the Lexington pike in Nicholas County.

SULLIVAN AGAINST WILSON.

Opinion of Appellate Court in an Important Case Taken Up From Lewis County.

The Court of Appeals, as was stated a few days ago, has affirmed the judgment of the Lewis Circuit Court in the case of John Sullivan, appellant, against H. L. Wilson, &c., appellees. The court in its opinion says:

"It appears that the appellant, John Sullivan, obtained from the Lewis County Court the grant of a ferry right and franchise across the Ohio river from Manchester, Ky., to Manchester, O., and in order to properly enjoy the said franchise, it became necessary to condemn for ferry purposes a portion of the land owned by appellee, H. L. Wilson. A jury summoned under a writ of ad quod damnum, fixed the damages to said Wilson at \$1,550, including the fee to two acres of land, Wilson having refused to make his election and to whether the land should be condemned for a period of twenty years or in fee.

"The final judgment in said proceeding seems to have been rendered in March, 1891. On the 3rd day of July, 1893, the said Wilson and Jas. H. Sallee, committee for said Wilson, prosecuted an appeal to the Lewis Circuit Court, and upon final hearing the Circuit Court adjudged, 'that the appeal be sustained and judgment of the County Court in this case be reversed and verdict of the jury and judgment therein be set aside, and that this cause be remanded to the Lewis County Court with directions and instructions to said court, and the Judge thereof to set aside the judgment rendered in this cause from which this appeal was taken, and to issue another writ of ad quod damnum directing the Sheriff of Lewis County to summons another jury to go upon the premises in controversy and ascertain the value according to law of the land, &c., sought to be condemned in this proceeding in fee or for twenty years, giving appellant or his committee for him the right to elect whether said property shall be condemned for twenty years, or in fee, or at all, and require said Sheriff to report the verdict of the jury to some subsequent term of said court.'

Appellant having requested the court to state the facts upon which its judgment is based found the following facts: 'The court finds that the plaintiff, H. L. Wilson, was at the time of the verdict of the jury under the writ of ad quod damnum, and since, of such unsound mind as to prevent his exercising reasonably the right of election he has as to whether condemnation in this cause should be for twenty years or in fee, and of such unsound mind at the time of the rendition of the judgment in the County Court that there was no election made.'

Appellant's motion for a new trial having been overruled, he has appealed to this court. The contention of appellant is that the Circuit Court could not hear any testimony on the trial of an appeal, except such as was transmitted from the County Court, and also in as much as he had no notice of any mental defect of Wilson at the time of the judgment complained of, that the judgment should not be disturbed, and that the evidence failed to show such mental incapacity upon the part of Wilson as would authorize the judgment to be set aside.

Section 2 of chapter 42, of the General Statutes, provides that an appeal from any order concerning ferry or ferry rates in favor of any one interested shall lie to the Circuit Court of the county and thence to the Court of Appeals, both of which shall have jurisdiction of law and fact, but the Court of Appeals only of such facts as shall be certified from the Circuit Court.

It would seem from the foregoing that the Circuit Court was authorized to hear evidence in addition to the evidence certified from the County Court; it therefore follows that the Circuit Court did not err in the admission of the testimony excepted to by appellant.

The proceedings in the County Court seem to be regular and not subject to be set aside or reversed for any reason except the fact as found by the Circuit Court. It must be conceded that the testimony heard in the Circuit Court tended strongly to establish the mental incapacity of said Wilson, and in fact he was not competent to elect whether said property should be condemned for twenty years or in fee his committee or real representative should be permitted to make the election.

We understand the judgment of the Circuit Court, when properly considered, to mean a reversal only of the judgment confirming the verdict of the jury returned under the writ of ad quod damnum and directing that a new writ be issued, and the proceedings of the condemnation to be had as though no verdict had ever been rendered, and that the parties entitled to the election be permitted to elect whether the condemnation should be for twenty years or in fee, and upon their failure to elect condemnation will be in fee. It does not appear that the Circuit Court gave any weight to the testimony as to the value of the land condemned, or the proper manner of estimating the value thereof, hence we need not express any opinion as to that question. Judgment affirmed.

BERNHARDT TESTIFIES.

Declares Her Health Benefitted By Paine's Celery Compound.

The enthusiasm and the curiosity provoked by Mme. Sarah Bernhardt has never been equalled in the history of the stage. One talks vaguely of genius, temperament, quick intelligence, passion, nervous mobility, grace, smile, voice, charm, poetry—Mme. Sarah Bernhardt has them all.

Bernhardt is to-day as enthusiastic in her profession as though her career were before her. She works as assiduously during rehearsals as though each performance were her "first night."

No one is more conscientious in all matters pertaining to her life work. She knows the incalculable value of health, strength and high spirits as thoroughly as she comprehends the terms of her contracts, and no one knows better than she how essential to her artistic success is a vigorous nervous system.

Mme. Bernhardt writes the following letter:

"I beg leave to state that, according to your instructions, I have used Paine's Celery Compound, and I am convinced that it is the most powerful nerve strengthener that can be found. It is with the greatest pleasure that I send you my sincere testimonial. Truly yours, SARAH BERNHARDT."

Good health is within the reach of every one, not only the wealthy and famous, but the poor as well, who will rely on Paine's Celery Compound.

Ill health and disease are not natural. One should not compromise with them. No one should give in to neuralgia, rheumatism or heart trouble when Paine's Celery Compound is vouchsafed to drive them entirely out of the system. It has

done so in thousands of carefully observed cases.

The nervous debility, sleeplessness and kidney disorder that seems so threatening and disheartening lose their hopeless, desperate character when one takes Paine's Celery Compound to drive them out of the system.

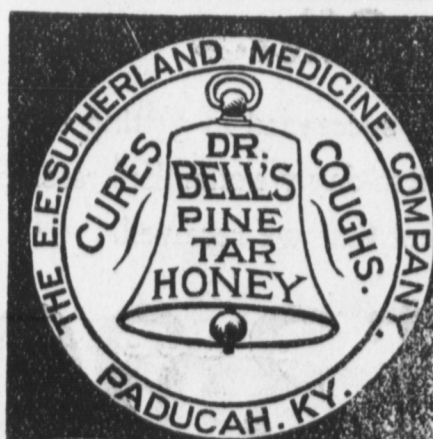

Many a woman worn out by exciting, anxious work, will find strength brought back in a wonderful manner and her overtaxed nerves regulated and nourished by the use of Paine's Celery Compound. Paine's Celery Compound braces and invigorates the relaxed nervous system and eradicates harmful humors from the blood. It makes the appetite hearty and the digestion thorough; it permanently cures indigestion, a sluggish action of the liver, and drives out rheumatism, neuralgia and blood impurities. Every trace of nervous exhaustion or kidney or liver weakness is removed by Paine's Celery Compound.

There are no more striking examples of the great practical value of Paine's Celery Compound than is heard from the lips of women who have been made well by its vitalizing action.

It increases the volume of the blood in the arteries and makes it more capable of feeding the body. It creates a hearty appetite and urges upon the tired nerves and brain the nourishing elements they lack, but are slow to extract from the blood when it is in a sluggish, unhealthy condition.

The blood becomes ruddy and pure; its circulation is hastened, and every function of the body—the brain among the first—feels the fresh impulse of returning health from the use of Paine's Celery Compound.

THE LEADING GROCER.

At Ruggles' Camp Ground,

SATURDAY, JULY 3, at 10:30 a. m., the following privileges will be let to the best bidder:

Hotel, Confectionery, Stable, Baggage room and Barber shop. The board reserves the right to reject any or all bids.

The meeting on these beautiful and much improved grounds will be held beginning July 22, and closing on August 1. Enormous dividends will be present. Rev. M. Swadner, of Cincinnati, O., and the ministers of the Covington and Ashland districts are expected to be present. The singing will be in charge of Prof. J. G. Crabbe, of Ashland, assisted by a splendid choir, which is an assurance that it will be all that can be desired.

A fourteen-room house has been built with porches all around, making accommodations for any and all comers. The Tabernacle has been enlarged and the hotel will be improved by the directors this year. And the best of all is we have excellent water—two large disterns and three wells. One of the wells is 150 feet deep, the water of which has been analyzed and contains the following medicinal qualities: Total solids, 3.6 to the liter, soluble salts 3.16 to the liter; consisting of chlorides and sulphates of magnesium, sodium and potassium; insoluble salts .044 to the liter, consisting of calcium carbonates with traces of iron.

The meetings will be in charge of Revs. G. R. Frenge and J. G. Dover, Presiding Elders of the Covington, Maysville and Ashland districts. If you desire tents write
